

# GENERAL SAFETY

## MOST IMPORTANT –RISK ASSESS

Before you commence any work at your chosen work area, you should undertake some preliminary hazard identification and risk control precautions. Ideally more than one person should do this.

### This is undertaken by:

Physically inspecting the work site.  
Reviewing the best way / job steps required to complete the task.  
Reviewing the Safe Work information supplied with the equipment.  
Reviewing other reference documentation and expert advice.

### The hazard identification and control process steps are defined as:

Identify the hazards (e.g. 240v power drill use around wet areas)  
Assess the Risk (multiple earth paths – possible electrocution)  
Select the control measure (e.g. dry the area, use an RCD, use a cordless drill etc)  
Re-assess the risk. (risk of electrocution now negligible) This is undertaken to ensure that the risk control measures adopted have not introduced any new risks to the work area.

## HELP

If the unit does not operate or you are unhappy with its performance, return it to our Hire depot for exchange or call for assistance. Do not attempt repairs yourself.  
Refer to your hire contract for contact information.

## SAFETY DO'S

**DO** take the time to read this User Guide and any other safety information provided (e.g. Decals, manufacturers instruction booklets), completely before operating any equipment.  
**DO** satisfy yourself that you have the correct machine for the job and that you are aware how to safely operate it.  
**DO** ensure you fully understand and are familiar with its operation including emergency shut off procedures.  
**DO** ensure that the equipment is assembled and used according to the manufactures and hires instruction.  
**DO** check controls and any other safety devices.  
**DO** make sure you hold a posses a Certificate of Competency issued by the Regulatory Authority where required by particular equipment.  
**DO** where possible operate in a clear work space free from non essential persons.  
**DO** ensure that you have secure footing and clear access to the work area.  
**DO** ensure that the work area is well lit with all aspects of the job easily seen.  
**DO** ensure correct lifting techniques are used when using or transporting any machine or equipment.

## SAFETY DONT'S

**DO NOT** operate any equipment if you are tired or suffering a medical condition, or if under the influence of Alcohol or drugs which, may cause drowsiness.  
**DO NOT** hurry or take risks.  
**DO NOT** operate equipment without guards correctly fitted.  
**DO NOT** operate faulty equipment. If in doubt call your nearest Hire Depot.

## Vehicle Safety Instructions

Read and understand these instructions before using this equipment.

### TRUCK SAFETY

Before you leave the rental center check your side mirrors and adjust as necessary. Our staff will assist with this if required.

Spread your load evenly over the entire tray. Even weight distribution will allow you to carry your load more safely.

Cover your load. Penalties apply for uncovered loads. Insurance options do not cover your load.

The load is your responsibility.

Stand well clear of the truck being loaded or unloaded by fixed cranes, forklift or other mechanical measures.

Always securely lock tail gate and sides.

Stay clear of overhead powerlines and obstructions.

Check behind before reversing the truck into position.

Please read this guide carefully prior to operating equipment.

Make sure the truck is level before tipping.

### INSTRUCTIONS TO RAISE TRAY

1. Have engine running.
2. Handbrake on and gear in Neutral
3. Engage Clutch and move "PTO" switch to "ON".
4. Ease your foot off the clutch and press the hoist "UP" button to raise tipper tray.
5. To lower tray turn PTO "OFF" and press the "DOWN" button.

DO NOT engage PTO whilst driving

NEVER DRIVE WITH THE TIPPER TRAY IN THE RAISED POSITION.

### TIPS

- Plan your trip, take notes of any overhead bridges or tunnels and check clearance heights.
- Increase the distance between vehicles when travelling.
- Fully loaded trucks take longer to stop.
- Notify the police immediately of the damage exceed \$500 and or if a person is injured.
